

## Magnetic Doorlock pull to open

### Description

Safety door locking system for washing machines pull to open with screw fixation system.

The innovative DF series has been designed in order to meet any mounting requirement: the device therefore constitutes a “modular system” in which the functional part is independent

from that of application. Reduced dimensions and high safety in the locking system.

Low noise when locking or unlocking.

Easily customizable in a short time according to customer needs.

### Main Benefits

- Safety on failure
- Meet any new mounting requirement in a short time and with reduced investment costs
- Manufacturing rationalisation, which warrants a high quality level of all manufactured items

### Certifications

# Rold DF Series

## Magnetic Doorlock Pull to Open

All products are approved to current Quality Standards. The Company reserves the right to make technical modifications to improve the product. Sizes indicated are not binding. For special applications, not mentioned here, please ask the manufacturer for further information. Uncorrect electrical wiring or assembling may cause overheating of the switch and consequent risk of short-circuit and fire. Update: March 2022
