

Magnetic Doorlock Pull-to-Open System

Description

Door locking system for front loading washing machines with high mechanical performances. A safety doorlock with pull to open system that keeps the door closed when the washing machine is in stand-by and locks the door during the washing cycle. The user finds great comfort in opening

and closing the door. Reduced dimensions and high safety in the locking system. Low noise when locking or unlocking. Easily customizable in a short time according to customer needs. The product complies with all safety requirements imposed.

Main Benefits

- Reliability
- Instant opening
- Easily customizable
