

Compact Modular Switch

Description

The SK series represents the development of the most advanced modular switches made for household and professional appliances. Thanks to our specialized push-fit system, the switch can be mounted individually directly on the unit to which it is applied or alternatively one or more switches can be pre-mounted on a bracket. The

SK switches can be made both in the momentary version and in the maintained one. Interlocking fixing on the panel by means of self-locking hooks, on the upper part of the circuit-breaker. Small dimensions, the switch can be applied in narrow space conditions.

Main Benefits

- Plug-in with customizable shaft
- Rast 5 connector to simplify wiring
